SUMMARY

MCA student with hands-on, real-world experience across **full-stack development, SEO, and scalable web applications** — built a production taxi booking platform, an ASP.NET-based online examination system, and a growing service marketplace application using PHP, ASP.NET, Node.js, and React. Independently design, develop, and manage 4+ live client websites end-to-end, including hosting and SEO, driving measurable search rankings and business growth. Strong foundation in Python, Java, C#, and SQL, with a growing focus on full-stack JavaScript development. Currently pursuing MCA at Dharmsinh Desai University.

TECHNICAL SKILLS

- **Languages:** Python, Java, PHP, JavaScript, C#, SQL
- **Frontend:** React.js, HTML, CSS, Bootstrap
- **Backend:** PHP, ASP.NET, Node.js
- **Databases:** MySQL, MongoDB, SQL Server
- **CMS & Marketing:** WordPress, SEO, Local SEO, Technical SEO, Google Ads
- **Tools & Hosting:** Git, GitHub, Docker, VS Code, Hostinger

PROJECTS

DwarkeshCab & Saurashtra Taxi Growth · [Live Site](#) — *WordPress · SEO · Google Ads*

- Developed and grew **WordPress-based taxi service websites** with **200+ dynamic city-to-city landing pages** for Gujarat routes, driving organic visibility through keyword research, on-page **SEO**, Google Search Console optimization, and **Google Ads campaigns** — generating measurable customer inquiries for real business clients. Deployed and manage the sites on **Hostinger with custom domains**, handling hosting, DNS, and uptime.

StudyIQ Online Examination System · [GitHub](#) — *ASP.NET · C# · SQL Server*

- Built a full **ASP.NET web application** with **role-based access** for students, examiners, and administrators — including authentication, student performance tracking, certificate generation, and administrative dashboards backed by a structured **SQL Server database**.

JunctionTaxi — Online Taxi Booking · [GitHub](#) — *PHP · MySQL · HTML · CSS · JavaScript*

- Developed a **full-stack taxi booking and fleet management platform** enabling customers to book rides, schedule future trips, and manage reservations online, with an **automated email notification system** that alerts the taxi owner instantly whenever a customer makes a booking. Built a comprehensive **admin dashboard** (bookings, vehicles, services, users, invoices, blogs, banners) backed by a **normalized MySQL database with multiple relational tables** supporting complete CRUD operations.

Local Service Provider Platform · [GitHub](#) — *Node.js · React · MongoDB*

- Building a **service marketplace** that connects customers with local service providers across categories like home cleaning, repairs, and salon services. Implemented **provider listings** with category and location-based search, a **booking module** for scheduling service requests, and separate **customer and provider dashboards** to manage listings and bookings — built on a responsive React frontend with a Node.js and MongoDB backend.

EDUCATION

Dharmsinh Desai University

Master of Computer Applications (MCA)

Nadiad, Gujarat

2025 – 2027

Saurashtra University

Bachelor of Computer Applications (BCA)

Jamnagar, Gujarat

2022 – 2025

ACHIEVEMENTS

- Independently designed, developed, and deployed **4+ production websites** for real business clients — handling everything from development to hosting, maintenance, and ongoing updates.
- Optimized **200+ SEO landing pages**, consistently ranking **DwarkeshCab among the top 3 positions on Google's first page** for Jamnagar taxi service keywords — securing the #1 spot for several target keywords.
- Completed a **Software Testing certification** organized by **Dharmsinh Desai University**.
